# Introduction

Just off Interstate 4 in Orlando, Florida, Universal Studios Orlando offers families a wonderful theme park alternative.

Universal has an undeserved reputation as appealing only to thrill-seekers, but this is simply not the case.

Woody Woodpecker's KidZone offers children an immersive wonderland

where they can splash in fountains,

ride a roller coaster designed just for them

or fly to the Green Planet with E.T.

Loveable characters such as Scooby Doo, Barney and the stars of Animal Planet are featured in their own shows.

If your kids are slightly braver, top attractions like Disaster, Shrek 4D and Jaws are not to be missed.

In this tour, you will learn insider tips on choosing attractions that are right for your kids,

finding hidden spots to take breaks while the kids play, and balancing the needs of children who are of different ages and interests.

A former employee will act as your personal VIP guide, helping you navigate the park like a pro while minimizing wait times,

keeping costs down and heading off family meltdowns.
