Welcome to Steamboat

Whether you arrive during the day or night, from the east, south, or west, Steamboat Springs' Yampa River Valley beckons with majestic calling.

Unlike the towering, jagged peaks of the Rockies to the east, the surrounding mountains of this valley cap-out at a relatively short 10,500 feet in elevation.

The hills are covered in pine, fir, aspen, and scrub oak trees, with feldspar and sandstone outcroppings punctuating the forest... one can vividly imagine the wild

animals that are sheltered by this rugged terrain.

This snow-covered valley is a winter sportsman's paradise. It offers endless terrain for snowmobile and dogsled tours, spectacular views from hot-air balloons,

and snowshoe trails around every corner.
Winter fly-fishing lessons are available, and
of course there's the world-class skiing.

Spend part of your trip on Steamboat Ski Area's 3,500 acres of famous dry-powder trails: the remainder of your time can be spent discovering what the rest of the valley has to offer.

Discover why the Native American “Curse of the Yampa Valley” has visitors returning to this famous ski resort year after year.

From a dip in the hot springs to a back-country trip on a Powdercat, your days can be both relaxing and energizing.

Take a stroll downtown to view the dozens of bubbling hot springs along the river, the charming shops, and the historic buildings - some of which have been around since the early 1900s.

Spend the morning skiing on snow-capped hills, and explore the secrets of those acres of powder.

Steamboat has been chosen as one of the top family ski resorts in the country, where both children and adults will find play around every corner. So come discover a Steamboat that even the locals don't know!
