Where Rio Vacations

Let me take you to just a stone's throw east of Rio where a trio of towns awaits us, each unique, and each with its own treasures to offer. From the tiny fishing village of Arraial do Cabo take a boat tour to the Blue Grotto...

...and to the beaches of Prainha,
considered the second best in all of Brazil.

We'll linger over a late lunch at a seaside table on Praia do Forno, with the tide washing over your feet.

Glide over waters of supernatural cobalt and turquoise.

In Cabo Frio, we'll stroll along the seven-kilometer stretch of squeaky clean white-sand beach.

Watch in awe as waves crash against the cliffs of Praia do Forte beach, and brave youngsters dive into the South Atlantic.

Perch on the parapet of a 400-year-old fort, imagining the days of colonies and buccaneers.

And we'll visit the trendy shops of Bikini Street.

A highlight will be pretty, chic little Búzios, discovered by Brigitte Bardot in the 1960s.

We'll meander our way along delightful streets of stone, shopping and window shopping.

Enjoy a sumptuous meal, or a mouth-watering crepe prepared with flair before your eyes.

Then visit Búzios' array of stunning beaches. The Sun Coast offers the perfect complement to big-city Rio, which is why Cariocas vacation here. Let's discover their secret getaway.
