Australia's Beginnings

Sydney is where a spark formed a nation.

Throughout the Central Business District, or CBD, harbours and coves you will find a formidable history.

The city had a lot of work to do in just a little more than 200 years to quickly catch up with the rest of the world.

Sydney is filled with statues of great men that formed what we now can behold as great beauty in creating the dream.

It is a city of many faces, filled with the different cultures that it took to make it all come together perfectly.

The sails of different ships that have graced the waters carried them here in chains--or for dreams.

Sydney is a city of hope and imagination.

Darling Harbour's transformation from industrial centre into an entertainment haven beyond expectation will thrill you.

The many parks offering nature's beauty for relaxation will capture your senses.

The coves that were the first Australian soil people set foot upon are magical for realization.

The CBD that is a mix of the past with the present, is blended impeccably to make this a city you will never forget.

We hope that you will enjoy your trip to our great city and that it gives you as much pleasure as it does its own.
